

A large black dragon with orange-tipped wings and tail is breathing a massive plume of fire. It stands in a sandy arena with a crowd of spectators in the background. A small dragon is visible in the upper left, and a dragon's head is in the upper right.

CHAPTER 1: BEASTS

Beast is one of the three classifications used by the Ministry of Magic to catalogue the various magical creatures that inhabit the wizarding world. A Beast is a living thing that is not intelligent enough to abide by wizarding laws, or in other words, anything that does not fit the criteria of a Being. Wild animals and all the creatures students learn about in Care of Magical Creatures are classified as Beasts.

Some creatures appear to fit the qualifications that define a Being and are capable of intelligent speech, such as Acromantulas, Sphinxes, Manticores, and Erklings, but have not been offered Being status due to their extremely violent and even lethal tendencies, which interferes with their role in a lawful society. They are thus classified as Beasts.

Spell Resistant. Any time the acromantula is targeted by a spell that requires a ranged attack roll, the acromantula is unaffected.

Spider Climb. The acromantula can climb difficult surfaces, including upside down on ceilings, without needing to make an ability check.

Web Sense. While in contact with a web, the acromantula knows the exact location of any other creature in contact with the same web.

Web Walker. The acromantula ignores movement restrictions caused by webbing.

Actions

Bite. *Melee Weapon Attack:* +5 to hit, reach 5 ft., one target. *Hit:* 12 (2d8+3) piercing damage plus 9 (2d8) poison damage. The target must make a DC 12 Constitution saving throw, taking the poison damage on a failed save, or half as much damage on a successful one. If the poison damage reduces the target to 0 hit points, the target is stable but poisoned for 1 hour, even after regaining hit points. It is paralyzed while poisoned in this way.

Spider Climb. The acromantula can climb difficult surfaces, including upside down on ceilings, without needing to make an ability check.

Standing Leap. The acromantula's long jump is up to 20 feet and its high jump is up to 10 feet, with or without a running start.

Web Sense. While in contact with a web, the acromantula knows the exact location of any other creature in contact with the same web.

Web Walker. The acromantula ignores movement restrictions caused by webbing.

Actions

Bite. *Melee Weapon Attack:* +6 to hit, reach 5 ft., one target. *Hit:* 12 (2d8+3) piercing damage plus 18 (4d8) poison damage. The target must make a DC 14 Constitution saving throw, taking the poison damage on a failed save, or half as much damage on a successful one. If the poison damage reduces the target to 0 hit points, the target is stable but poisoned for 1 hour, even after regaining hit points. It is paralyzed while poisoned in this way.

Deadly Leap. If the acromantula jumps at least 15 feet as part of its movement, it can then use this action to land on its feet in a space that contains one or more other creatures. Each of those creatures must succeed on a DC 14 Strength or Dexterity saving throw (target's choice) or be knocked prone and take 37 (10d6 + 2) bludgeoning damage. On a successful save, the creature takes only half the damage, isn't knocked prone, and is pushed 5 feet out of the acromantula's space into an unoccupied space of the creature's choice. If no unoccupied space is within range, the creature instead falls prone in the acromantula's space.

If no unoccupied space is within range, the creature instead falls prone in the acromantula's space.

Frightful Presence (Recharge 6). Each creature of the acromantula's choice that is within 60 feet and aware of it must succeed on a DC 13 Wisdom saving throw or become Frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the acromantula's Frightful Presence for the next 24 hours.

Lunging Bite. *Melee Weapon Attack:* +7 to hit, reach 10 ft., one target. *Hit:* 17 (3d8+4) piercing damage plus 18 (4d8) poison damage. The target must make a DC 14 Constitution saving throw, taking the poison damage on a failed save, or half as much damage on a successful one. It is paralyzed while poisoned in this way.

Web (Recharge 5-6). *Melee Weapon Attack:* +7 to hit, reach 5 ft., one prone target. *Hit:* The target is restrained by webbing. As an action, the restrained target can make a DC 15 Strength check, bursting the webbing on a success. Serpent's Eyes. The basilisk has two gleaming yellow eyes. A creature can target the eyes (50 hit points) with any attack that requires an attack roll by imposing disadvantage on the roll made to hit the basilisk. Dealing damage to the eyes also deals damage to the basilisk. Once the basilisk's eyes are destroyed, it loses its Death Gaze trait.

Death Gaze. If a creature starts its turn within 60 feet of the basilisk and the two of them can see each other, the creature must make a DC 13 Dexterity saving throw to attempt to avert its gaze. If the saving throw fails by 5 or more, the creature looks directly into the basilisk's eyes and instantly dies. Otherwise, a creature that fails the save catches the gaze of the basilisk indirectly and is petrified until freed by a Mandrake Restorative Draught.

A creature that isn't surprised or incapacitated can avert its eyes to avoid the saving throw at the start of its turn. If it does so, it can't see the basilisk until the start of its next turn, when it can avert its eyes again. If it looks at the basilisk in the meantime, it must immediately make the save.

If a creature (including the basilisk) looks at the basilisk's eyes indirectly, such as through a reflection or through an opaque material like a ghost's body, the creature must immediately make the save but cannot be killed by the gaze, even if they fail the save by 5 or more.

Fear of Roosters. A basilisk that starts its turn within 120 feet of a rooster must make a DC 20 Wisdom saving throw or become frightened of the rooster for 1 minute. The basilisk can repeat this saving throw at the end of each of its turns, ending this effect on a success. If the basilisk hears the crow of a rooster it must succeed on a DC 25 Constitution saving throw or drop to 0 hit points.

Keen Smell. The basilisk has advantage on Wisdom (Perception) checks that rely on smell.

Spell Resistant. Ranged spell attacks made against this creature take no effect.

Actions

Multiattack. The basilisk makes two attacks: one with its bite and one with its tail.

Bite. Melee Weapon Attack: +14 to hit, reach 10ft., one target. **Hit:** 22 (3d8 + 9) piercing damage plus 42 (12d6) poison damage, and the target must succeed on a DC 19 Constitution saving throw or become poisoned. While poisoned, the target must repeat the saving throw at the end of each of its turns, taking 14 (4d6) poison damage on a failed save. Until this poison ends, the damage the poison deals can't be healed unless phoenix tears or similar magic are applied to the wound, at which point the target is no longer poisoned.

Tail. Melee Weapon Attack: +14 to hit, reach 15ft., one target. **Hit:** 20 (2d10 + 9) bludgeoning damage.

On a 6, the dragon is unaffected, and the effect is reflected back at the caster as though it originated from the dragon, turning the caster into the target.

Actions

Multiattack. The dragon can use its Frightful Presence. It then makes two attacks: one with its bite and one with its claws.

Bite. *Melee Weapon Attack:* +10 to hit, reach 10 ft., one target. *Hit:* 16 (2d10+5) piercing damage plus 7 (2d6) fire damage.

Claw. *Melee Weapon Attack:* +10 to hit, reach 5 ft., one target. *Hit:* 12 (2d6+5) slashing damage.

If a creature's saving throw is successful or the effect ends for it, the creature is immune to the dragon's Frightful Presence for the next 24 hours.

Breath Weapons (Recharge 4-6). The dragon uses one of the following breath weapons.

Fire Ball. The dragon launches a small ball of fire towards any point within in 120 feet and then explodes into a fiery blast upon impact. Fire Breath. The dragon exhales fire in a 60-foot cone. Each creature in that area must make a DC 19 Dexterity saving throw, taking 63 (18d6) fire damage on a failed save, or half as much damage on a successful one.

Legendary Actions

Detect. The dragon makes a Wisdom (Perception) check.

Fire Ball Attack (Costs 3 Actions). The dragon uses its Fire Ball breath weapon, regardless of whether the ability is recharged or not. After this attack, it must be recharged as normal.

Tail Attack. The dragon makes a tail attack.

Wing Attack (Costs 2 Actions). The dragon beats its wings. Each creature within 15 feet of the dragon must succeed on a DC 18 Dexterity saving throw or take 12 (2d6+5) bludgeoning damage and be knocked prone. The dragon can then fly up to half its flying speed.

Legendary Resistance (1/Day). If the dragon fails a saving throw, it can choose to succeed instead.

Reflective Hide. Any time the dragon is targeted by a spell that requires a ranged attack roll, roll a d6. On a 1 to 5, the dragon is unaffected. On a 6, the dragon is unaffected, and the effect is reflected back at the caster as though it originated from the dragon, turning the caster into the target.

Actions

Multiattack. The dragon can use its Frightful Presence. It then makes two attacks: one with its bite and one with its claws.

Bite. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target. *Hit:* 16 (2d10+5) piercing damage. The target must make a DC 16 Constitution saving throw, taking 21 (6d6) poison damage on a failed save, or half as much damage on a successful one.

Claw. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target. *Hit:* 12 (2d6+5) slashing damage.

Tail. *Melee Weapon Attack:* +9 to hit, reach 10 ft., one target. *Hit:* 13 (2d8+4) bludgeoning damage.

Frightful Presence. Each creature of the dragon's choice that is within 120 feet and aware of it must succeed on a DC 15 Wisdom saving throw or become frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the dragon's Frightful Presence for the next 24 hours.

Fire Breath (Recharge 5-6). The dragon exhales fire in a 30-foot cone. Each creature in that area must make a DC 16 Dexterity saving throw, taking 63 (18d6) fire damage on a failed save, or half as much damage on a successful one.

Legendary Actions

The dragon can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The dragon regains spent legendary actions at the start of its turn.

Detect. The dragon makes a Wisdom (Perception) check.

Tail Attack. The dragon makes a tail attack.

Wing Attack (Costs 2 Actions). The dragon beats its wings. Each creature within 5 feet of the dragon must succeed on a DC 16 Dexterity saving throw or take 11 (2d6+4) bludgeoning damage and be knocked prone. The dragon can then fly up to half its flying speed.

Brittle Bones. When a creature succeeds on its grapple check against the swarm, the swarm's DC to escape from the Strangle action is decreased by 1.

Swarm. The swarm can occupy another creature's space and vice versa, and the swarm can move through any opening large enough for a Small grindyflow. The swarm can't regain hit points or gain temporary hit points.

Water Breathing. The grindyflow can breathe only underwater.

Actions

Bites. *Melee Weapon Attack:* +4 to hit, reach 5 ft., one target. *Hit:* 16 (4d6+2) piercing damage, or 9 (2d6+2) piercing damage if the swarm has half of its hit points or fewer.

Strangle. *Melee Weapon Attack:* +4 to hit, reach 0 ft., one target in the swarm's space. *Hit:* The creature is grappled (escape DC 14). Until this grapple ends, the target is restrained and the swarm can't strangle another target. After a number of rounds equal to the target's Constitution modifier (minimum of 1 round), the target gains one level of exhaustion at the start of each of its turns. All levels of exhaustion gained this way are removed 1 minute after this grapple ends.

NUNDUS

Cruel Cats. The nundu is a large creature, native to hot tropical jungles that resembles a leopard with the throat of a pufferfish. It moves silently, despite its size, and is considered by some to be one of the most dangerous creatures alive. The breath of the nundu is toxic and so potent that it can wipe out entire villages of people.

The nundu is extremely hard to subdue, as it is vicious with finely honed instincts. Myths and folklore surround this creature in the regions it resides in, the local residents find the nundu truly terrifying.

Puffed Pride. The nundu appears as a sleek jaguar or panther when stalking prey, but if seen or threatened it inhales air to puff up its throat. When enlarged, it gives the effect of a mane, and the nundu resembles a male lion.

The deadly toxin that the nundu excretes from its spines can be harvested and used in poisons. Not many hunt the nundu due to its ferocity and the fact it provides no edible meat when killed. Only skilled butchers can ascertain which scarce parts of the nundu can be eaten, as even a smallest bite of the wrong part of nundu meat is fatal.

CHAPTER 2: BEINGS

Being is one of the three classifications used by the Ministry of Magic to catalogue the various magical creatures that inhabit the wizarding world. The definition of a Being is any creature that has sufficient intelligence to understand the laws of the magical community and to bear part of the responsibility in shaping those laws.

All humans are beings, as are goblins, vampires, hags, giants, house-elves, veela, werewolves, merpeople and centaurs.

CHAPTER 3: NON-BEINGS

Officially termed "Non-Human Spiritous Apparitions," non-beings is the final category to describe a phenomenon that defies explanation. They are neither spirits nor beasts, and it is believed that non-beings are not even truly alive. There are very few types of non-beings, but their abnormality has earned them wide-reaching reputations.

DEMENTORS

"The dementor is among the foulest creatures that walk this earth. They infest the darkest, filthiest places, they glory in decay and despair, they drain peace, hope, and happiness out of the air around them... Get too near a dementor and every good feeling, every happy memory will be sucked out of you."

Dark Entities. Dementors are believed to be formed from the negative emotions of humans, much like poltergeists. Dementors grow like fungi in dark places filled with decay. Large groups of them will be surrounded by a freezing mist that rolls across the countryside like fog, affecting entire populations with their negative energy.

Because dementors are not truly alive, they cannot be forcibly destroyed or killed. A dementor can be driven to flee through spells like the Patronus Charm, but given time, it will eventually gather its strength back.

Depression Manifested. A dementor is best described as depression in a corporeal form. Its very presence drains the warmth and happiness out of anyone unfortunate enough to cross its path, filling them with despair and forcing them to relive their worst memories. This same aura pulls warmth from the air, causing frost to collect on surfaces and nearby water to freeze. Prolonged exposure to a dementor often drives a victim insane. This made dementors extremely effective guards in Azkaban prison, destroying any hope of escape among the inmates.

Dementors are blind, but they can sense the emotions of people around them. They seem to be naturally drawn to individuals who have experienced great suffering or some kind of trauma in their lives. This sense doesn't work very well on animals, which would feel less human, less complex and less appealing. Muggles cannot see dementors, but still suffer their effects and are threatened by them.

Spending time away from a dementor is enough to cure an individual of these negative effects, but eating chocolate is a fast-acting remedy. The chocolate clears the victim's head and returns warmth to their limbs.

Soul Eaters. If dementors relish fear and suffering, the ultimate prize is the consumption of a human soul. If it wishes, a dementor can latch its mouth onto a victim's and suck out that person's soul. Known as the Dementor's Kiss, this leaves the victim in a state "worse than death," an empty shell of a body with no sense of self. Little is known about the true impact of such a loss, but there is no chance of recovery.

When promised suffering and souls, dementors will cooperate and follow orders. No matter how obedient they may appear, they always act in their own self-interest. They do not care who is the victim and will gladly drain the emotions or soul from anyone readily available.

Amortal Nature. A dementor doesn't require air, drink, or sleep. Being starved of human emotions for an extended period may cause a dementor to be unmade, but this has never been witnessed first hand. It's also been speculated that reducing the amount of negative emotion in the world will thin the dementors' numbers. At the very least, this limits the conditions which allow them to multiply, but dementors always seem to form, given enough time.

Challenge 5 (1,800 XP)

Despair Aura. Any being that enters within 60 feet of a dementor for the first time on a turn or starts its turn there must succeed on a DC 15 Wisdom saving throw or take 5 (1d10) psychic damage and be frightened for as long as it is within 60 feet of a dementor. While it is frightened, a target takes 5 (1d10) psychic damage at the start of each of its turns as it relives its worst memories. A target reduced to 0 hit points as a result of this damage automatically stabilizes. A creature can only suffer this damage once per round. If there are multiple dementors within 60 feet

of the target when it takes this damage, increase the damage by 1 for each other dementor in range. A frightened target can repeat the saving throw at the end of each of its turns, with disadvantage if any dementors are within line of sight, ending the effect on itself on a success.

Sense Emotions. A dementor's blindsight allows it to feel the emotion of any being within its range. Any attempt by a being to Hide from a dementor while within its blindsight radius automatically fails.

Sunlight Sensitivity. While in sunlight, the dementor has disadvantage on ability checks, and on Wisdom (Perception) checks.

Actions

Drain Emotion. The dementor targets one being it can see within 10 feet of it. The target must make a DC 15 Charisma saving throw, with disadvantage if the target is frightened, taking 21 (4d8 + 3) psychic damage on a failed save and half as much damage on a successful one. A target reduced to 0 hit points as a result of this damage automatically stabilizes.

Kiss. The dementor attempts to seize hold of one being it can see within 5 feet of it. The target must succeed on a Strength or Dexterity saving throw (target's choice) or be grappled (escape DC 12). As part of this action, and as an action on subsequent turns, the dementor can begin to consume the soul of a grappled target. The target takes 7 (1d6 + 4) necrotic damage and its Strength score is reduced by 1d6. The target's soul is consumed if this reduces its Strength score to 0 or if the target dies as a result of this damage. Otherwise, the reduction lasts until the target finishes a short or long rest. A consumed soul is forever lost, leaving the target in a vegetative state and effectively dead.

Keen Smell. The rat has advantage on Wisdom (Perception) checks that rely on smell.
